Rapid reports

The presence of GPI-linked protein(s) in an archaeobacterium, *Sulfolobus acidocaldarius*, closely related to eukaryotes
T. Kobayashi, R. Nishizaki and H. Ikezawa (Japan) 1

Photosensory transduction in *Halobacterium salinarium*: evidence for a non-linear network of cross-talking pathways
S. Lucia, G. Cercignani and D. Petracchi (Italy) 5

Novel electrode designs for electrochemotherapy
R.A. Gilbert, M.J. Jaroszeski and R. Heller (USA) 9

In vivo antitumor effects of electrochemotherapy in a hepatoma model
M.J. Jaroszeski, R.A. Gilbert and R. Heller (USA) 15

Radiolabeling of lectin from *Robinia pseudoacacia* by reductive methylation
K. Tazaki (Japan) 19

Biosynthesis of thromboxane by snake (*Elaphe obsoleta*) erythrocytes and the requirement of eicosanoid production for blood clotting
C.A. Herman, X. Wang and K. Gronert (USA) 23

Short sequence-paper

Cloning and sequencing of trehalose synthase gene from *Thermus aquaticus* ATCC33923
K. Tsusaki, T. Nishimoto, T. Nakada, M. Kubota, H. Chaen, S. Fukuda, T. Sugimoto and M. Kurimoto (Japan) 28

Regular papers

Modification of liver cytosol enzyme activities promoted in vitro by reduced sulfur species generated from cystine with γ-cystathionase
Y. Ogasawara, T. Suzuki, K. Ishii and S. Tanabe (Japan) 33

Nutritional vitamin K-intake and urinary γ-carboxyglutamate excretion in the rat
A.M. Crāciun, M.M.C.L. Groenen-van Dooren and C. Vermeer (The Netherlands) 44

Nitric oxide generation from extracellularly applied N^G-hydroxy-L-arginine in LPS-activated RAW 264 macrophages
P. Vetrovsky, A.L. Kleschyov, G. Entlicher, P. Poindron and J.-C. Stoclet (France, Czech Republic) 51

Chemical modification of an α3-fucosyltransferase; definition of amino acid residues essential for enzyme activity
C.J. Britten and M.I. Bird (UK) 57

Characterization of anti-peptide antibodies directed towards the automodification domain and apoptotic fragment of poly(ADP-ribose) polymerase
P.J. Duriez, S. Desnoyers, J.-C. Hoflack, G.M. Shah, B. Morelle, S. Bourassa, G.G. Poirier and B. Talbot (Canada) 65

Purification of the blood vessel ATP diphosphohydrolase, identification and localisation by immunological techniques
J. Sévigny, F.P. Levesque, G. Grondin and A.R. Beaudoin (Canada) 73

Stimulatory effect of fatty acid treatment on glucose utilization in human erythrocytes
Y.-J. Duan, S. Murase, J. Okuda, A. Tamura and I. Miwa (Japan) 89

Influence of heavy metal ions on antibodies and immune complexes investigated by dynamic light scattering and enzyme-linked immunosorbent assay
R. Bauer, A. Müller, M. Richter, K. Schneider, J. Frey and W. Engelhardt (Denmark, Germany) 98

Purification of enzymatically active kallikrein hK2 from human seminal plasma
G. Frenette, D. Deperthes, R.R. Tremblay, C. Lazure and J.Y. Dubé (Canada) 109

Information for Contributors vii

Rapid report

Negative entropy of halothane binding to protein: ^{19}F-NMR with a novel cell
T. Yoshida, M. Tanaka, Y. Mori and I. Ueda (Japan, USA) 117

Regular papers

Involvement of protein kinase A in the induction of arginase in murine bone marrow-derived macrophages
I.M. Corraliza, M. Modolell, E. Ferber and G. Soler (Spain, Germany) 123

Magnetic resonance microscopy studies of cation diffusion in cartilage
K. Potter, R.G.S. Spencer and E.W. McFarland (USA) 129

Inhibition of acid sialidase by inorganic sulfate
A. Greffard, N. Trabelsi, H. Terzidis, J. Bignon, M.-C. Jaurand and Y. Pilatte (France) 140

Influence of histone acetylation on the modification of cytoplasmic and nuclear proteins by ADP-ribosylation in response to free radicals
L. Böhm, F.A. Schneeweiss, R.N. Sharan and L.E. Feinendegen (South Africa, Germany, India) 149

Taurolithocholate can inhibit the biliary discharge of lysosomes in the rat
R.A. Marinelli, J.M. Pellegrino and M.C. Larocca (Argentina) 155

Lung specific stealth liposomes: stability, biodistribution and toxicity of liposomal antitubercular drugs in mice
P. Deol and G.K. Khuller (India) 161

Graded dietary levels of RRR-γ-tocopherol induce a marked increase in the concentrations of α- and γ-tocopherol in nervous tissues, heart, liver and muscle of vitamin-E-deficient rats
M. Clément and J.-M. Bourre (France) 173

Stage specific expression of milk fat globule membrane glycoproteins in mouse mammary gland: comparison of MFG-E8, butyrophilin, and CD36 with a major milk protein, β-casein
N. Aoki, T. Ishii, S. Ohira, Y. Yamaguchi, M. Negi, T. Adachi, R. Nakamura and T. Matsuda (Japan) 182

2′,3′-Dideoxynucleoside triphosphates (ddNTP) and di-2′,3′-dideoxynucleoside tetraphosphates ($ddNp_4ddN$) behave differently to the corresponding NTP and Np_4N counterparts as substrates of firefly luciferase, dinucleoside tetraphosphatase and phosphodiesterases
M.A.G. Sillero, O. Madrid, E. Zaera and A. Sillero (Spain) 191

Catecholamines oxidation by xanthine oxidase
C. Foppoli, R. Coccia, C. Cini and M.A. Rosei (Italy) 200

Species-specific β-*N*-acetylgalactosaminylation of serum IgG proteins
N. Aoki, T. Matsuda, T. Sakiyama, K. Iwatsuki and K. Furukawa (Japan) 207

Regional distribution and postnatal changes of D-amino acids in rat brain
K. Hamase, H. Homma, Y. Takigawa, T. Fukushima, T. Santa and K. Imai (Japan) 214

Matrix loss and synthesis following a single impact load on articular cartilage in vitro
J.E. Jeffrey, L.A. Thomson and R.M. Aspden (UK) 223

Modulation of trehalase activity in *Saccharomyces cerevisiae.* by an intrinsic protein
J. Freire de Mesquita, V.M. Flosi Paschoalin and A.D. Panek (Brazil) 233

A new metabolite of propargylglycine, γ-glutamylpropargylglycylglycine, in liver of D,L-propargylglycine-administered rats
J. Ohta, T. Ubuka, H. Kodama, K. Sugahara and N. Nagamine (Japan) 240

Chemical characterization of milk oligosaccharides of the brown bear, *Ursus arctos yesoensis*
T. Urashima, Y. Kusaka, T. Nakamura, T. Saito, N. Maeda and M. Messer (Japan, Australia) 247

Expression of the F-type 6-phosphofructo-2-kinase/fructose-2,6-bisphosphatase mRNA during liver regeneration
M. Joaquin, J.L. Rosa, R. Bartrons and A. Tauler (Spain) 256

Catalytic domain comparisons of human fibroblast-type collagenase, stromelysin-1, and matrilysin
L.J. Windsor, D.L. Steele, S.B. LeBlanc and K.B. Taylor (USA) 261

Monocarboxylic acids enhance the anesthetic action of procaine by decreasing intracellular pH
H. Katsuki, S. Ibusuki, M. Takasaki, K. Nagata and Y. Hiji (Japan) 273

Sensitization of skin fibroblasts to UVA by excess iron
P. Morlière, S. Salmon, M. Aubailly, A. Risler and R. Santus (France) 283

Pyruvate metabolism in *Campylobacter* spp.
G.L. Mendz, G.E. Ball and D.J. Meek (Australia) 291

Role of nitric oxide in the cerebellar degeneration during methylmercury intoxication
T. Yamashita, Y. Ando, N. Sakashita, K. Hirayama, Y. Tanaka, K. Tashima, M. Uchino and M. Ando (Japan) 303

Can energy transfer be an indicator for DNA intercalation?
K.-M. Hyun, S.-D. Choi, S. Lee and S.K. Kim (South Korea) 312

Overexpression of phosphofructokinase and pyruvate kinase in citric acid-producing *Aspergillus niger*
G.J.G. Ruijter, H. Panneman and J. Visser (The Netherlands) 317

The effect of non-polar liquids and non-ionic detergents on the ultrastructure and assembly of rat tail tendon collagen fibrils in vitro
X.W. Hu, D.P. Knight and J.A. Chapman (UK) 327

Astrocytes cultured in vitro produce estradiol-17β and express aromatase cytochrome *P*-450 (*P*-450 AROM) mRNA
I.H. Zwain, S.S.C. Yen and C.Y. Cheng (USA) 338

Structure–activity relation in camptothecin antitumor drugs: why a detailed molecular characterisation of their lactone and carboxylate forms by Raman and SERS spectroscopies?
I. Chourpa, A. Beljebbar, G.D. Sockalingum, J.-F. Riou and M. Manfait (France) 349

Ethylbenzene modulates the expression of different cytochrome *P*-450 isozymes by discrete multistep processes
W. Yuan, S.C. Serron, M.M. Haddican, G.F. Cawley, C.S. Eyer and W.L. Backes (USA) 361
